

NEWBOLD SCHOOL

Our Philosophy, Mission Statement

Our Philosophy

Newbold School provides a warm, caring environment where all children can learn to relate positively to pupils, staff and other adults. It recognises the uniqueness of each individual and priority is given to helping every student develop socially, spiritually, emotionally, academically and physically.

All members of the staff are committed to giving quality education in a caring Christian environment where the worth and personal development of each child is respected and enhanced. We endeavour to help children distinguish between performance and their inherent worth. Each child must know that his/her performance has no bearing on their worth as an individual.

We welcome children from all faiths and backgrounds, and seek to enable them to achieve their full potential, laying firm foundations for their future role in society. Children accepted into our school are expected to maintain the high standards that set our school apart from many others.

As an independent Christian school, Newbold School is concerned with upholding family values, respect for authority and the overall development of each child.

Mission Statement

Our Mission is to create a secure, loving environment by presenting God as the source of all life and truth, encouraging children to practise Christian Values with respect to themselves, others and the environment.

At Newbold School every child is treated with respect as an individual and assisted in discovering their personal gifts, thereby encouraging their spiritual, social, physical and intellectual growth. By building close links between the school, family and church we seek to develop confident, motivated pupils who are equipped and inspired to extend their horizons.
